Form 470 Number: 240017198

BEN Number: 143865

Addendum 1

The following document is an Addendum (identified as 'Addendum 1') to the Pioneer Union Elementary School District E-Rate Category 2 Request for Proposals for Funding Year 2024, Form 470 Number 240017198. This document contains answers to questions that have been submitted to the designated email address.

Corrections

The following are corrections to the originally posted RFP:

-
- 1 The original RFP, on Page 2 stated "*The last Day to submit questions prior to submission is 3:00 PM PST on Friday, February 26, 2024. Refer to Information Requests on page 6.*"

This should read "*The last Day to submit questions prior to submission is 3:00 PM PST on **Monday**, February 26, 2024. Refer to Information Requests on page 6.*"

Additionally, the District will allow for questions to be submitted up till **Wednesday, February 28, 2024 at 3:00 PM PST**. The District will post a followup Addendum on **Friday, March 1, 2024**, if necessary.

-
- 2 Similar to the correction above, on the original RFP, Page 6 stated "*The last day to submit questions is 3:00 PM PST on Friday, February 26, 2024.*"

This should read "*The last day to submit questions is 3:00 PM PST on **Monday**, February 26, 2024.*"

Questions & Answers

The following is a list of questions and answers posted to date:

-
- 1 Question Is there a classroom layout with [ethernet] drop and location totals?

Answer Yes. Attached to this document, please see Appendix C and D at the end of this document.

Pioneer Union Elementary School District
E-Rate Category 2 Request for Proposals: Addendum 1

Funding Year: 2024

Form 470 Number: 240017198

BEN Number: 143865

- 2** Question Is there an IDF enclosure spec for the IDF swap bid alternative discussed on the site walk?

Answer Yes. The following specifications may be used for replacing the IDF cabinets identified during the site walk. Vendors are reminded that proposals including the IDF cabinets and related costs should have these components priced separately from the overall proposal so that bids may be considered fairly.

IDF cabinets shall be equal or better than Tripp Lite SRW18USDP (for 18U) or SRW26USDP (for 26U).

- 3** Question Are any copper patch cables required? If so, do you have qty's and lengths?

Answer Yes. These can be found on the original RFP, Page 9.

- 4** Question For data ports in plenum space, [does the District] want a mounted set of ports, or just jacks with a loop?

Answer The District would prefer keystone-styled jacks on service loops (~10' or vendor's discretion) located in the center of the ceiling plenum area above the room. The ports should be labeled following the same schema as other data jacks.

Note: As the access points being set up with the wireless controller in the RFP, the District does expect the affected access points to be re-connected to one or more of these plenum connections.

- 5** Question The hardware wireless access controller platform [Aruba 7210, Model JW744A] in the RFP has been announced as being end-of-sale by the manufacturer, is the District aware of this?

Answer The District was not aware of this announcement at the time this RFP was being developed. Vendors should evaluate an 'equal or better' solution (hardware or software) that is still compatible with the fleet of access points still in the District (listed in Appendix A: Access Points in the original RFP).

- 6** Question Some of the transceivers listed are not listed as being compatible with the specified switch - was this on purpose?

Answer No, this was unintentional. Vendors should verify that all transceivers are compatible with the associated equipment.
