## Questions & Answers

The following is a list of questions and answers posted to date:

- 
- 1** Question Are you looking for a Point to [multipoint] solution for the sites listed on the RFP, as well as dedicated internet access for each campus?

Answer Yes. The District is seeking a solution that provides high speed private network connectivity to each school site, and internet access. This can be found on the original RFP, Page 11:

“The DISTRICT (Pioneer Union Elementary School District) is seeking internet access with bundled transport to three district sites within the city of Hanford, CA 93230, with routed internal communication. In addition to routing, any traffic outside of dedicated links must be secured by VPNs.”
